EDUCATION

Chandigarh University

Master of Computer Applications (MCA)

Punjab, India

2026 – 2028

Chandigarh University

Bachelor of Computer Applications (BCA)

Punjab, India

2023 – 2026

EXPERIENCE

The Entrepreneurship Network

April 2025 – June 2025

React.js Developer (Intern)

Remote

- Constructed 10+ responsive UI components with React.js for the Ten Summit website, improving page rendering speed by 25%
- Partnered with a 5-member cross-functional team to ship 6+ frontend features on schedule, reducing user-reported issues by 30%
- Diagnosed and resolved 20+ frontend bugs and performance bottlenecks, cutting average page load time by 35%
- Utilized JavaScript (ES6+), JSX, CSS Modules, Git, and REST APIs across 3+ integrated services to maintain frontend quality

PROJECTS

TypeRush – Realtime Multiplayer Typing Battle Platform | *Next.js, Socket.IO, Redis, MongoDB* | 2026

- Architected a realtime multiplayer typing battle platform supporting 50+ concurrent users across synchronized live sessions
- Established Socket.IO-driven live tracking with sub-100ms latency, handling room sync and winner detection for up to 20 players per room
- Leveraged Redis for session caching and MongoDB for persistent storage, reducing data retrieval latency by 60%

Nexus AI – Interview Practice Platform | *MERN Stack, Python, FastAPI, OpenAI* | 2025

- Engineered an AI-driven interview prep platform processing 100+ user sessions with a MERN stack frontend and Python FastAPI backend
- Incorporated OpenAI GPT models to generate role-specific interview questions across 10+ job roles and 3 difficulty levels
- Designed a real-time NLP-based answer evaluation pipeline delivering structured feedback in under 2 seconds per response
- Crafted an interactive React.js UI with voice-to-text input, reducing manual typing effort by 50% across user sessions

AI Voice Calling Agent | *Next.js, Twilio, PostgreSQL, OpenAI APIs* | 2026

- Built an intelligent voice calling agent handling 100+ calls using Twilio and OpenAI APIs for real-time conversational responses
- Processed live audio with OpenAI speech-to-text and text-to-speech APIs, achieving under 500ms end-to-end response latency
- Structured a PostgreSQL schema across 5+ tables to store call logs, transcripts, and interaction history for analytics
- Shipped a Next.js dashboard centralizing monitoring for 100+ sessions, reducing manual call review time by 40%

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS

Backend: Node.js, Express.js, Python, FastAPI

Databases: MongoDB, PostgreSQL, Redis, Prisma

DevOps & Tools: Docker, Kubernetes, Git, AWS
